

**Carefully read the leaflet because it contains important information for the person using the supplement.**

#### LEAFLET Active Love

Dietary supplement . Sugar-free chewing gum containing sweeteners with a cinnamon-mint flavour; it contains L-arginine, L- citrulline, an extract of Tribulus natural fruit extract, ginseng root extract, powder from the Lepidium meyenii, powdered lovage root, cayenne pepper. Active ingredients contained in rubber help to induce and strengthen erection, improve the quality of sexual life, increase libido, support natural sexual energy.

**L-arginine** and **L-citrulline** are  $\alpha$ -amino acids that help treat erectile dysfunction by increasing the production of nitric oxide. Nitric oxide is needed for the muscles surrounding blood vessels supplying the penis, to relax. As a result, blood vessels in the penis dilate, increasing blood flow, which helps maintain an erection. Wider blood vessels also help increase the delivery of nutrients and oxygen to working muscles during exercise, thus enhancing exercise performance.

**Extract from ginseng root** (Panax Ginseng) – increases vitality and strength, helps to fighting the stress, regulates blood pressure.

**Tribulus Terrestris** stimulates secreting testosterone and increases sexual potency.

**Lovage root** (Radix Levistici) – in traditional medicine it is used as a sexual drive stimulant and as an amorous drink.

**Maca root** (Lepidium meyenii) - gives energy and supports the functioning of the organism, increases women's and men's libido.

**Cayenne pepper** – a kind of a very hot pepper called “Cayenne” containing a high level of capsaicin. Capsaicin improves blood circulation, what gives additional energy.

#### What is a chewing gum Active Love

Aphrodisiac – a dietary supplement
